## **Telenity to Present at the IMS India 2008 International Conference**

**New Delhi, India – February 4, 2008** – Telenity ([www.telenity.com](http://www.telenity.com)), a leading provider of next generation converged services platforms and applications for communications networks, today announced that Mr. Hetarth Patel, Sales Director for Asia Pacific region will be presenting at the IMS India 2008 International Conference on February 8<sup>th</sup> in Mumbai, India.

Mr. Patel's presentation will be part of the session titled "IMS and Evolution of Services and Applications" during:

- Time : 14:30 – 16:30
- Date : 8th February 2008
- Venue : Taj Lands End, Bandra (West), Mumbai

The presentation will cover IMS and Service Delivery Platform (SDP) key drivers for next generation value added services such as video ringback tones and video mail.

### **About IMS India 2008**

Major carriers all over the world are launching fixed/mobile convergence (FMC) voice services that enable customers to place calls over mobile networks and WLAN access points using the same dual-mode wireless handset, yet many of them can't hand over calls between the two different networks. IP Multimedia Subsystem (IMS) is affording the telecom operators the opportunity to provide mobile and fixed multimedia services, enabling not only new services, but new partnerships, new markets and bringing new competitors.

IMS India 2008 will bring together service providers, fixed and mobile operators together with technology providers. This event is designed to equip operators with the knowledge, solutions and partners they need to make IMS based services a profitable reality. This conference reviews the potential for IMS globally and locally.
